

Tabulator IMS

Streamline operational procedures, improve workflow control, and support quality assurance. ISO certification and compliance software.

From your initial quality standards implementation, right through to systems auditing, Tabulator helps your team gain efficiencies, through better communication, document control and process definition.

Whether it's quality standards like ISO, or accreditations to meet operational targets, Tabulator helps your business remain compliant, streamline procedures and enable the audit process.

Easy to Use Software Solution

Our cloud based solution means you can work 24x7 from anywhere, at any time, reducing the need for any investment in specialist technology infrastructure.

The Tabulator Advantage

- Centralised control and management of your organisations IMS.
- Improved staff confidence and communication.
- Streamlined processes and distributed policies to support ISO.
- Operates on all devices, in every browser.
- Affordable, easy to implement and customisable to meet any business.
- Increases time available to management to implement proactive measures.

Track Record

With over 10 years of experience, we have built up a diverse portfolio of clients. We work with clients across industries. We're experienced and flexible. No matter what industry you work in, Tabulator's flexible platform can be completely tailored to meet your company's needs.
